	active line, pilot circuit
	oil
	non fuel gas

Identification letters of EN 19227 part 1		
CODE	FIRST LETTER	FOLLOWING LETTER
A		noise amplifying, store
B		controlling
C	identity	affordance
D	electrical variables	using student
E	flow rate	ratio
F	padding, length, position	
G	force, sensory is indicated	high indicating
H		turning
I	time, time program	
J	law	law
K	gesture, habit	
L	user's choice	user's choice
M	user's action	test pairs connection
N	gesture	
O	quality, ex. analogic, computer, control	imagined social
P	noise reduction	
Q	impact, frequency	recording
R	level variable	switching
S	temperature	transmitting
T		
V	visual, form	seeing, detailing element
W	ergonomics	
X	predicted use variations	analysis of functions
Y	user's choice	predicting relay, using
Z		highly sensitive, safety using
		high

hints for mounting of pipework see technical information T3024.

delivery scope Bosch Industriekesse
